PERMANENT ORDER 336-05

2 December 2014

United States Army Program Executive Office, Combat Support and Combat Service Systems

Announcement is made of the following award:

Award: Army Superior Unit Award

Period of service: 1 October 2012 to 30 September 2013

Authority: AR 600-8-22, paragraph 7-16

Reason: During the period 1 October 2012 to 30 September 2013, the United States Army Program Executive Office, Combat Support and Combat Service Systems displayed outstanding meritorious performance in support of Soldiers engaged in combat operations and preparing future combat support capabilities. Across a portfolio that includes the tents, shelters, tools, generators and diverse support equipment important to every Soldier every day, the Program Executive Office's team overcame tremendous fiscal challenges, changes in the operational environment and damaging civilian furloughs to excel in delivering Soldier-focused capabilities. Managing a \$2 billion appropriation, the Program Executive Office team effectively fielded more than 14,000 tactical wheeled vehicles, more than 2,000 in-theater survivability upgrades and thousands of other systems in support of every geographic combatant commander. They devised a groundbreaking approach to contingency base fuel management that saved 77,500 gallons per month, all while continuing to explore wide-ranging operational energy improvements in theater-representative laboratory environments. Moreover, the team identified numerous cost-saving and cost-avoidance opportunities expected to yield \$780 million in benefits over five years and its work pursuing a mature, affordable solution to today's light tactical wheeled vehicle capability gap earned high praise and the 2013 David Packard Award for Acquisition Excellence. The dedication and outstanding performance of the United States Army Program Executive Office, Combat Support and Combat Service Systems are in keeping with the finest traditions of military service and reflect great credit upon the Program Executive Office, the Assistant Secretary of the Army, Acquisition Logistics and Technology and the United States Army.
